EXAMINER'S AMENDMENT

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 17-20 to an invention non-elected without traverse. Accordingly, claims 17-20 have been cancelled.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Siu on 6/4/2005.

The application has been amended as follows: Cancel claims 17-20, 23, and 32.

3. The following is an examiner's statement of reasons for allowance: The first part of Applicant's invention generally describes a WYSIWYG editor. A WYSIWYG editor usually deals in visual representations of objects and saves them to HTML code or script. In this invention they are saved as objects which, when accessed on the server generate code. There are objects that generate code known in the prior art, such as PHP objects, which are a type of scripting, designed to save time by automating and reusing code. However, there would be no motivation to use such objects on the server, when the web page in it's entirety had already been completely generated by the WYSIWYG editor.
